THE QUIETEST RIDING, BEST HANDLING COACH ON THE MARKET TODAY. PERIOD.

HERE'S WHY:

1. SPARTAN® CHASSIS

Every Spartan® chassis comes with a best-in-class 3-year/50,000-mile transferable warranty, with no deductibles. Spartan® chassis also boasts an industry-best, 20-year transferable warranty on the frame as well as a Cummins® 5-year/100,000-mile engine warranty and an Allison® 5-year/200,000-mile transmission warranty.

Included in the limited warranty is roadside assistance provided by Coach-Net®, which offers service/towing through 40,000 service and repair facilities in the U.S. and Canada.

2. EXCLUSIVE X-BRIDGE™ FRAME

Our exclusive X-Bridge™ frame adds even more floor strength and structural rigidity, eliminating chassis flex and twisting; with it, the suspension—not the chassis—absorbs road shock and vibration.

3. FIVE-INCH-THICK FLOORS (CORNERSTONE, ANTHEM & ASPIRE ONLY)

The industry's thickest floor starts with a ¾" 7-ply plywood for dramatic reductions in energy transmission, noise and vibration. Cabinets are screwed directly to the wood and tile is laid precisely around them; other manufacturers place cabinets on top of the tile, causing squeaks or cracking.

4. RESIDENTIAL-STYLE WALLS AND ROOF (CORNERSTONE, ANTHEM & ASPIRE ONLY)

Our roof combines crowned aluminum truss rafters on 16" centers with Flexfoil®, fiberglass insulation and ¾" plywood decking. Our sidewalls and rear cap are the ONLY triple-insulated walls on the market. Featuring Styrofoam™, Flexfoil® and glued batt insulation, our triple-insulated walls keep the coach quiet, and you comfortable, on the inside.

5. BILSTEIN® MONOTUBE GAS PRESSURE SHOCKS

Designed specifically for luxury motorcoaches by Bilstein®, these shocks have 228% more surface area than twin-tube shocks for greater sensitivity and control. They virtually eliminate excessive sway and self-adjust.

6. MICHELIN® MOTORHOME TIRES

One of the most trusted names in the business, Michelin's motorhome tires are designed for unparalleled fuel efficiency, high mileage and precise load control.

7. IFS (INDEPENDENT FRONT SUSPENSION)

Offers premium ride and handling characteristics due to the ability of each wheel to address the road undisturbed by the activities of the other wheel. Entegra Coach is the only diesel manufacturer to include IFS on ALL model lines.

Gross Vehicle Weight Rating (GVWR): The maximum permissible weight of the motorcoach, including the Unloaded Vehicle Weight (UVW) plus passengers, personal items, all cargo, fluids, options and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the Cargo Carrying Capacity. Gross Axle Weight Rating (GAWR): The maximum allowable weight each axle assembly is designed to carry, as measured at the tires, therefore including the weight of the axle assembly itself. Gross Combined Weight Rating (GCWR): The maximum allowable combined weight of the motorcoach used as a tow vehicle and the attached towed vehicle.
