

DREAM HAVEN

INTRODUCING THE

GLADIATOR
STORM

Built for those who chase **adventure beyond** the beaten path, the Gladiator Storm is built for adventure.

It's for explorers who seek out remote destinations, unforgettable views, and experiences few others ever reach. When the road ends, the Storm is just getting started.

Designed and manufactured by Australia's most awarded RV builder, the Storm comes loaded with features many competitors charge extra for. Supported by a galvanized Australian dual-stacked six-inch steel chassis and paired with off-road airbag suspension, it delivers the strength and confidence needed for off-road travel across the U.S.

Inside, comfort meets capability. A private wet bath with cassette toilet, generous storage, smart TV, café dinette, and a flexible twin-to-queen bed configuration ensure you can travel without sacrificing comfort. Power comes from a 460Ah heated lithium battery system, 3kW inverter, dual 230W solar panels, portable solar connection, and DC/DC battery management, giving you the freedom to stay off-grid longer. The Storm is prepared for remote stays, with dual heated freshwater tanks, a gray water tank, portable induction cooking ideal for high-altitude camping, and external work lights that keep your campsite functional long after sunset.

The Gladiator Storm isn't just another overlanding trailer, it's a purpose-built adventure platform for those who demand quality, reliability, and the confidence to explore without limits.

Over 20 years of experience in travel trailers with superior build quality

Able to withstand extreme temperatures

Award-winning Australian camper trailer manufacturer

Outstanding Customer Reviews

Compact, rugged and easy to tow

GLADIATOR STORM

FLEXIBLE BEDDING:

A versatile sleeping arrangement means options when you're out on the road traveling with your best mate, your favorite cousin or your special someone. Twin bedding converts quickly and easily on the spot to form a comfortable queen bed to give you the option to choose who's coming with you on the next adventure!

SPECIFICATIONS:

Sleeps	2 People	Dry Weight	3973 lbs*	Overall Height	9 ft 9 in*
Tongue Weight	337 lbs*	Body Length	16 ft 7 in*	Overall Width	7 ft 2 in
Max Payload	2200 lbs	Overall Length	23 ft 7 in*	GVWR	6173 lbs

FEATURES:

Chassis & Build

- Composite fiberglass insulated floor, walls and roof (roof, front and rear wall are one piece)
- DO35 fully articulating coupling, semi-recessed & rated safety chains
- Strong 450MPa Australian steel 6" double-stacked chassis and a-frame
- Front storage box with integrated stone plates, 2 slide-out compartments: 1 for propane tanks and 1 for generator/fridge/storage
- 16" all-terrain tires with full size mounted spare
- Air bag suspension
- Durable, adjustable angle drop-down support legs x4
- Sturdy pull-out step
- Undercarriage plumbing protection

External

- 13' manual awning
- Fender skirts
- Propane quick-connect fitting (awning side)
- LED light bars to front and rear
- Full pass-through storage compartment
- Drop-down external picnic table
- External TV mount bracket and connection points
- External 110/12V connection points
- Entry and awning lights
- TV antenna
- External hot/cold shower

Windows & Doors

- Large, dual-pane windows with screens and black out shades
- 3-way entrance door with security screen

Bedroom

- Single to Queen bed conversion with innerspring mattress and connecting zipper (+cafe dinette seating)
- 12V adjustable cabin fan x2
- USB/C Charging points x2

Living

- Heavy-duty, durable vinyl flooring
- 6'3" internal ceiling height
- 22" 12V smart TV
- Remote control LED lighting
- Portable Bluetooth Speaker
- Dining table (folding slide out with storage)

Kitchen

- Portable induction dual cooktop
- Range hood for inside cooking
- 5.3 cu ft 12V compressor refrigerator
- Convection microwave with air fryer
- Premium mixer faucet with pull-down faucet and square sink

Bathroom

- Studio wet bath shower and cassette toilet
- Full-height mirrored door
- Window ventilation
- Overhead storage cabinet in wet bath

Cabinetry

- Precision CNC-cut plywood cabinetry
- Soft-close metal drawer systems with heavy-duty runners
- Gas strut hinges on overhead cupboards

Hatches, Heating & Cooling

- Hatch skylights/ventilation
- 13,500 BTU Dometic AC
- Furnace heating

Safety

- Breakaway safety system
- Fire extinguisher and smoke alarm
- CO and propane detector
- 12" electric brakes
- Reverse camera with bluetooth connect display screen

Water & Gas

- 20 gallon fresh water tank x2 (with heating pads)
- 20 gallon gray water tank (with heating pads)
- 20lb propane tanks x2
- Quick-fill water tank valves

Electrical

- BMPro 35 II HA DC/DC Charger
- 230W solar panels x2 (460W total)
- 460 Ah Lithium battery (heated in freezing temps, externally mounted in protective box)
- 110V/12V wiring
- Anderson style solar charging port for portable solar panel charging
- 3000W inverter with shunt

DISCLAIMER: *Indicative lengths and weights are for standard configuration, weights are approximate only and can vary between individual RVs. The Compliance Plate specifies the accurate weight for each respective travel trailer. Body length is measured externally from the front wall to the back wall. Overall length is measured externally from the A-frame coupling to the back wall and excludes the removable rear bumper bar and spare wheel (approx. 16 inches). Overall width is measured externally and includes all protruding fixtures. All specifications are correct at time of print and are subject to change without notice due to ongoing improvements
*The 3D floorplans on this flyer feature partial cross-sections of the travel trailer for visual representation only. For a detailed view of the layout, please visit our website.
