ATC TOY HAULER MODELS

HALF TON TOWABLE

ALL MODELS OF THE ALL ALUMINUM ATC TOY HAULER ARE LIGHT ENOUGH TO BE HAULED BY A HALF TON TRUCK.

BUT, WE DIDN'T SACRIFICE DURABILITY IN OUR EFFORT TO BUILD A LIGHTWEIGHT TRAILER. THE WALLS, CEILING AND FLOOR CROSSMEMBERS ARE ALL WELDED TOGETHER, CREATING ONE SOLID INTEGRATED FRAME OF WEATHER RESISTANT ALUMINUM.

WITH NO STEEL TO RUST, AND NO WOOD TO ROT, THE ATC TOY HAULER IS A FUEL EFFICIENT, LONG LASTING INVESTMENT.

* The weight of a loaded 28' model may exceed the towing capacity of some half ton trucks.

When you decide to have us build an ATC Toy Hauler, you won't be selecting an RV from a list of predetermined models with locked-in features. You will configure a unit to fit your needs and your style. You can choose your favorite colors and upgrade from a great list of options.

Due to continual improvement of ATC Inc. products, we reserve the right to change material, colors and specifications at any time without prior notification. Selected photos may show optional equipment, which are not part of a standard car hauler model. ATC Trailers assumes no responsibility for any error in type or print reproduction of specifications or color in the brochure.
